FOR RELEASE: Wednesday, November 22, 2006

**Christopher C. Goulah, Post-Doctoral Research Fellow, joins Hauptman-Woodward Medical Research Institute Inc.**

Christopher C. Goulah has joined Hauptman-Woodward Medical Research Institute Inc. (HWI) as a post-doctoral research fellow.

He is working in Dr. Michael Malkowski's lab which is focused on structure-function studies of integral membrane proteins involved in arthritis and cardiovascular disease.

Goulah has worked both as an undergraduate and a research assistant at the University at Buffalo where he earned his bachelor's degree in Psychology in 1999, and his Ph.D in Microbiology.

He currently resides in Buffalo, New York with his wife and children.

**About HWI**

Celebrating 50 years of exceptional crystallographic research, HWI is an independent, non-profit facility specializing in the fundamental biomedical research known as structural biology. Our team of more than 70 staff members is committed to improving human health by studying the cause of disease, as well as potential therapies, at their basic molecular level. We are located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, NY, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI's website at [www.hwi.buffalo.edu](http://www.hwi.buffalo.edu) or call 716-898-8600.
