FOR RELEASE: Thursday, February 8, 2007

Daniel C. Oppenheimer joins Hauptman-Woodward Medical Research Institute

Daniel C. Oppenheimer has joined Hauptman-Woodward Medical Research Institute Inc. as a research intern to gain experience in molecular biology and protein biochemistry techniques.

He is working in Dr. Vivian Cody's lab. The Cody lab primarily focuses on AIDS and cancer-related enzyme targets. Oppenheimer plans to attend medical school in the fall and will gain research experience in the Cody lab. He will be involved in the expression and purification of proteins for crystallization studies.

Oppenheimer earned his bachelor's degree in Biology from the University of Vermont in 2006.

He resides in Amherst, NY.

About HWI

With more than 50 years of exceptional scientific research, HWI is an internationally-renowned independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. Our team of more than 75 staff members is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. We are located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI's website at www.hwi.buffalo.edu or call 716-898-8600.
