FOR RELEASE: Tuesday, March 6, 2007

Jimmitti Teysir, student intern, joins Hauptman-Woodward Medical Research Institute

Jimmitti Teysir has joined Hauptman-Woodward Medical Research Institute Inc. as a long-term student intern.

She is working in Dr. Bill Duax' lab. The Duax lab is studying a variety of issues, but primarily is focusing on the evolution of the genetic code, polycystic kidney disease and short-chain oxidoreductase enzymes.

Teysir is a student at City Honors High School in Buffalo, New York and will graduate in 2010.

She resides in Buffalo, New York.

About HWI

With more than 50 years of exceptional scientific research, HWI is an internationally-renowned independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. Our team of more than 75 staff members is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. We are located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI's website at www.hwi.buffalo.edu or call 716-898-8600.
