Han-Chun Cheng DeFedericis Joins Hauptman-Woodward Medical Research Institute

Han-Chun (Tina) C. DeFedericis has joined the Hauptman-Woodward Medical Research Institute as a research associate in the laboratory of Dr. Barnali (Neel) Chaudhuri.

DeFedericis’ work at HWI will focus on RNA processing enzymes.

She has worked in labs at the Roswell Park Cancer Institute, the University at Buffalo and the National Cheng Kung University (NCKU) in Tainan, Taiwan, and has served as a teaching assistant in the Clinical Laboratory Science Department at the University at Buffalo.

DeFedericis received her master’s degree in clinical laboratory science from the University at Buffalo and her bachelor’s degree in medical technology from NCKU.

She resides in Town of Alden, New York with her husband, Allen.

About HWI
Celebrating 50 years of exceptional scientific research, HWI is an independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. Our team of more than 70 staff members is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. We are located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI’s website at http://www.hwi.buffalo.edu/ or call 716-898-8600.
