Local Student Lynn Nyazika Joins Hauptman-Woodward as Research Aide

Lynn Nyazika has joined the Hauptman-Woodward Medical Research Institute as a research aide. She is in Dr. William L. Duax’s lab where she is currently working on bioinformatics. Nyazika also is studying sickle cell anemia, a genetic disease that is prevalent within the African American community and also occurs in other ethnic groups including people of Mediterranean and Middle Eastern descent.

A graduate of Villa Maria Academy, Nyazika is a student at D’Youville College where she is studying pre-medicine and Chemistry, with a minor in Information Technology.

Nyazika is a native of Zimbabwe and resides in Buffalo, New York.

About Nyazika’s Research Interests
Nyazika’s research interests include Bioinformatics, Molecular Biology and Crystallography.

About HWI
Celebrating 50 years of exceptional scientific research, HWI is an independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. Our team of more than 70 staff members is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. We are located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI’s website at www.hwi.buffalo.edu or call 716-898-8600.
