******* PHOTO OPPORTUNITY *******

One of Buffalo's Most Beautiful Buildings Enhanced With Art Glass

Please join us for a photo as one of Buffalo's most significant architectural buildings is further beautified with the installation of a 10' x 32' work of glass art commissioned for the Hauptman-Woodward Medical Research Institute with generously donated funds from the Cameron Baird Foundation.

WHEN: Tuesday, October 24, 2006 from 10 a.m. to 4 p.m.

WHERE: Hauptman-Woodward Medical Research Institute
700 Ellicott Street, Buffalo, NY, 14203

WHAT: The installation of a unique work of glass art – an artistic representation of the concepts which support the work of HWI scientists.

WHY: **A unique photo opportunity of the melding of art and science at one of Buffalo's most beautiful buildings.**

Editor's Note: If you prefer to film the final, installed piece in lieu of the installation process, please contact me and I will be happy to accommodate you, as well as provide you with confirmation of its completion.

Celebrating 50 years of exceptional scientific research, HWI is an independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. Our team of more than 70 staff members is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. We are located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI's website at www.hwi.buffalo.edu or call 716-898-8600.
