Buffalo’s Only Nobel Laureate Celebrates His 90th Birthday

Historically Significant Nobel Prize and Handmade Mathematical Stained Glass Collections To Be Unveiled

Please join us for a photo of Buffalo’s only Nobel Laureate Herbert A. Hauptman as he celebrates his 90th birthday with friends, family and colleagues from around the world. Permanent collections of his Nobel Prize and mathematical stained glass pieces will be unveiled.

WHEN: Wednesday, February 14, 2007 from 5 p.m. – 7 p.m.

WHERE: Hauptman-Woodward Medical Research Institute
700 Ellicott Street, Buffalo, NY, 14203

The unveiling of two permanent displays which house historically significant collections.

WHY: A unique photo opportunity of one of the area’s most brilliant scientists and the unveiling of two permanent displays that highlight some of his life’s work.

With more 50 years of exceptional scientific research, HWI is an independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. Our team of more than 70 staff members is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. We are located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI’s website at www.hwi.buffalo.edu or call 716-898-8600.
