FOR RELEASE: Thursday, February 15, 2007

Jian Fang, Research Associate, joins Hauptman-Woodward Medical Research Institute

Jian Fang has joined Hauptman-Woodward Medical Research Institute Inc. as a research associate.

He is working in Dr. Daniel Gewirth's lab which is focused on hsp90 chaperones; androgen and nuclear hormone receptors.

Fang worked as a research assistant at Peking Union Medical College in Beijing, China where he also earned his master's degree.

He resides in Amherst, New York.

About HWI

With more than 50 years of exceptional scientific research, HWI is an internationally-renowned independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. Our team of more than 75 staff members is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. We are located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI's website at www.hwi.buffalo.edu or call 716-898-8600.
