MEDIA OPPORTUNITY

Hauptman-Woodward Institute’s 2009 Summer Intern Program Presentations

WHEN: Thursday, August 6, 2009 at 9:15-11:45 a.m. and Friday, August 14, 2009 at 10:15-11:45 a.m. (Interviews with the students will be available at 9:15 a.m. and 11:30 a.m.)

WHERE: Hauptman-Woodward Institute, Flickinger Seminar Suite
700 Ellicott Street, Buffalo, NY 14203

WHAT: HWI student interns will present their research on topics such as molecular biology, biochemistry, crystal growth and X-ray diffraction. The 15-minute presentations will summarize each student’s 10 weeks of research with real-life lab procedures and state-of-the-art equipment with HWI scientists.

WHY: An opportunity to see some of the area’s most gifted students shine in science—our future young stars sharing their talent in Western New York’s future field of promise.
HWI is dedicated to training the next generation of structural biologists and has been running the intern program for 36 years.

WHO: Sixteen summer interns representing various colleges and universities throughout the U.S., such as Cornell, Princeton and Brown, who were selected as participants for the intern program.

ABOUT HWI
With more than 50 years of exceptional scientific research, HWI is an internationally-renowned independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. HWI’s team of more than 75 staff members is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. HWI is located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI’s website at www.hwi.buffalo.edu or call 716-898-8600.
