DR DAVID HOHN TO CHAIR HWI'S SCIENTIFIC ADVISORY COUNCIL

Dr. David Hohn, Professor, President Emeritus and Executive Director of Health Policy at Roswell Park Cancer Institute, has accepted an invitation to join the Hauptman-Woodward Medical Research Institute’s Scientific Advisory Council which he will chair. Dr. Hohn currently serves on the HWI Board of Directors.

The Scientific Advisory Council was established in order to obtain outside advice and guidance from respected scientists with various areas of expertise from across the world. The objective of the council is to provide periodic review for HWI based on the council member’s knowledge and to provide an independent assessment of the scientific programs at HWI.

Dr. Hohn came to Roswell Park Cancer Institute from the University of Texas MD Anderson Cancer Center where, as Vice President for Patient Care from 1993 to 1997, his responsibilities included oversight of all clinical departments, clinical research programs and the protocol office.

Hohn served for three years as Chairman of the Board of Directors of the NCCN, an alliance of 21 of the world’s leading cancer centers. He currently is a member of a number of Western New York civic and professional boards including the Buffalo Niagara Medical Campus, Buffalo Niagara Partnership and the Buffalo Philharmonic Orchestra.

He received a Bachelor of Science Degree in 1964 and his Doctor of Medicine Degree in 1970, both from University of Illinois, as well as a Certificate in Medical Leadership from Jones School of Business at Rice University in 1992.

Hohn resides in Buffalo, New York with his family.

ABOUT HWI

With more than 50 years of exceptional scientific research, the Hauptman-Woodward Institute is an internationally-renowned independent, non-profit facility specializing in life-altering research. HWI’s team of more than 75 members is committed to improving human health through the study of the causes of diseases, as well as potential therapies, at their fundamental molecular level. HWI is located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI’s website at www.hwi.buffalo.edu or call 716-898-8600.
