Leigh Allen, PhD Accepts Position as Postdoctoral Associate

Dr. Leigh Allen has accepted a position as a Postdoctoral Associate at the Hauptman-Woodward Medical Research Institute where she will be conducting research in Dr. Andrew Gulick’s laboratory. Prior to her arrival at HWI, Allen received a BSC with Honors in Chemistry from Wake Forest University with a concentration in Biochemistry, the first degree of its kind for the institution. Allen received her PhD in Chemistry from Duke University where she also and earned a Pharmacology certificate.

ABOUT HWI
This year marks the 25th anniversary of the Nobel Prize in Chemistry which was granted to Buffalo’s only Nobel Laureate and HWI namesake Dr. Herbert A. Hauptman. The anniversary is being celebrated throughout the calendar year with special events and publications. With more than 50 years of exceptional scientific research, the Hauptman-Woodward Institute is an internationally-renowned independent, non-profit facility specializing in life-altering research. Its team of more than 75 members is committed to improving human health through the study of the causes of diseases, as well as potential therapies, at their fundamental molecular level. HWI is located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a new state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI’s website at www.hwi.buffalo.edu or call 716-898-8600.
