HWI WELCOMES THREE NEW BOARD MEMBERS

Cynthia R. Heximer, Business Development Executive at Inergex, Inc., has been elected to the Hauptman-Woodward Medical Institute’s Board of Directors. Inergex, Inc. is a multi-million dollar Professional IT Services Company, where she was recruited to focus on IT Service Management (ITSM) and ServiceNow opportunities for the ITSM practice and expand the company’s geographical footprint.

Heximer is a graduate of the State University of New York at Buffalo, where she received a Bachelor of Science degree in Accounting and a Master of Business Administration.

John G. Horn, Esq., Partner, Harter Secrest & Emery LLP, has been elected to the Hauptman-Woodward Medical Institute’s Board of Directors. Mr. Horn has served as Partner in Charge of the firm’s Buffalo office since January 2009. His practice areas are building and construction, design professionals, health care professionals, intellectual property, litigation, manufacturers and distributors, Native American Law, not-for-profit organizations and privacy and data security.

Horn is a cum laude graduate of Loyola University Chicago, J.D., holds a Bachelor’s Degree from the University of Rochester and a Master’s Degree from Northwestern University.

Frederick G. Attea, Esq., Partner, Phillips Lytle, LLP, has been elected to the Hauptman-Woodward Medical Institute’s Board of Directors. Mr. Attea is engaged in securities and corporate practice with emphasis on mergers and acquisitions, securities law, corporate governance and legal compliance programs. He also concentrates in executive employment agreements and compensation plans. In addition, he is involved in programs for minimizing liability exposures of directors and officers.

Attea is an honors graduate from Fordham University School of Law, J.D., and a magna cum laude graduate of Canisius College where he received his Bachelor’s Degree.

About HWI
With more than 50 years of exceptional scientific research, HWI is an internationally-renowned independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. HWI’s team is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. HWI is located in the heart of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI’s website at www.hwi.buffalo.edu or call 716-898-8600.
