Gulick Named VP for Research

The Hauptman-Woodward Medical Research Institute has promoted Dr. Andrew M. Gulick to Vice President for Research. Gulick, who joined the Institute in 2001, holds the rank of Principal Research Scientist. He received his bachelor’s degree from Brown University and a PhD in Experimental Oncology and Biochemistry from the University of Wisconsin-Madison. His personal research interests include natural product synthesis and antibiotic discovery.

About HWI

Founded in Buffalo in 1956, the Hauptman-Woodward Medical Research Institute is an internationally renowned, independent, non-profit facility specializing in the area of fundamental biomedical research known as structural biology. HWI’s team is committed to improving human health by studying the causes of diseases, as well as potential therapies, at their basic molecular level. HWI is a founding member of the Buffalo Niagara Medical Campus in downtown Buffalo, New York, in a state-of-the-art structural biology research center at 700 Ellicott Street. For more information, visit HWI’s website at http://www.hwi.buffalo.edu or call 716-898-8600.
